

Big Dutchman®

NATURA **Visio**

The welfare-friendly aviary system for egg production
with a new, patented nest arrangement

NATURA Visio

The two-tier, welfare-friendly and easy-to-monitor laying aviary

With **NATURA Visio**, Big Dutchman offers a cage-free laying aviary characterised by the following outstanding features:

NATURA Visio

- ✓ open design: good overview and easy monitoring by the farm staff;
- ✓ low height: ideal for houses with low ceilings and for multi-level houses;
- ✓ centrally arranged colony nest in each tier: easy to reach from both the left-hand and right-hand sides, high nest acceptance and a low risk of mislaid eggs;
- ✓ chick ramps between the first and second tiers: good distribution of birds within the system and no obstructions in the litter aisles;

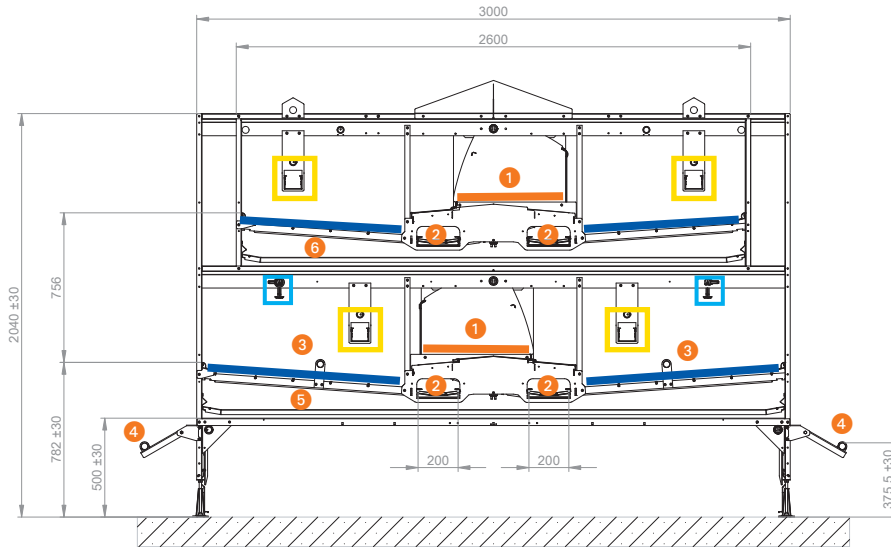

The egg belt is easy to see from the aisle

- ✓ »Visio twin belt«: good visibility of the longitudinal egg belts on each tier;
- ✓ any eggs mislaid in the system automatically roll onto the egg belt: no additional egg collection required;
- ✓ easy integration of an additional third feed circuit;
- ✓ large usable area: good utilisation of the house.

Short rolling-off distances for the eggs

Cross section of NATURA Visio

Key

- 1 Nest
- 2 Longitudinal egg belt
- 3 Perch
- 4 Approach aid
- 5 First manure belt level
- 6 Second manure belt level

The different areas of activity are arranged in a way that encourages the hens to move around in the system.

- Nest surface area
- Water
- Feed
- Usable area
