HogMate X150

The cleaning robot for pig houses
– flexible, efficient, easy to use –

HogMate X150

The cleaning robot for automated pig house cleaning

HogMate X150 is a tried-and-tested cleaning robot that washes pig houses automatically. Collaborating with the Danish company Washpower A/S, Big Dutchman is expanding its range of products for pig house cleaning.
HogMate X150 has two cleaning arms that automatically detect obstacles. The innovative swivelling technology enables the arms to retract separately when they sense obstacles – without interrupting the washing process. This is made possible by four sensors for obstacle detection.
HogMate X150 is also very easy to operate and to program.
Whether you use HogMate in the farrowing area, the nursery or a finishing house: the robot will provide reliable, efficient and fast cleaning results.

HogMate X150 cleaning a farrowing room

ADVANTAGES

- ✔ **Two cleaning arms:** particularly quick and efficient, especially well-suited for farms with short turnaround times between batches.
- ✔ **Easy selection of the cleaning programme with memory:** simply choose the house type; soaking and ceiling washing programme are included.
- ✔ **Multiple cleaning nozzles:** for pens with a depth of up to 7 metres.
- ✔ **Long battery life:** for a minimum cleaning time of 20 hours.
- ✔ **Robust and easy to maintain:** completely made of stainless steel with a clever design.
- ✔ **Integrated hooks:** to lift the robot, e.g. with a forklift.
- ✔ **Compact design:** also an option for narrow aisles.

Technical data

		HogMate X150
Dimensions (L x W x H)	cm	110 x 53 x 184
Weight	kg	280
Water consumption	L/m	min. 30 L / max. 50 L
Water pressure	bar	200
Water temperature	°C	60

Electric power supply: 230 V; a high-pressure washer is not included in the scope of delivery
