

Big Dutchman®

SmartCounting

Camera-based pig counting during moving –
fully automatic and with a minimum accuracy of 99.9 %

SmartCounting

Accurate real-time counting of your pigs during moving

Do you count your pigs – be it piglets or finishers – manually when moving them to a different location? Then you know how time-consuming this process can be. It can also be annoying and inaccurate. With **SmartCounting**,

this task is a thing of the past. Big Dutchman can offer an innovative solution which counts your animals fully automatically. The hardware consists of a camera and the controller and can be installed either in the

house in a fixed location, or be taken from building to building as required. Counting starts and stops at the push of a button.

ADVANTAGES

- ✓ time-saving and reliable recording of all pigs, with a minimum accuracy of 99.9 %;
- ✓ real-time count can be tracked on the controller or smartphone;
- ✓ video of the count for full transparency and absolute certainty;
- ✓ easy installation;
- ✓ user-friendly operation;
- ✓ no internet access required during the count;
- ✓ no financial losses due to incorrect pig numbers;
- ✓ patented counting system.

During the count, you can track in real time on the controller, your smartphone or tablet the number of pigs while they walk through the counting area. The pigs are added or subtracted from the total depending on the direction in which the animals move through the aisle. Of course, people are not counted!

The counted results are displayed in real time on the controller as well as on your smartphone or tablet. For full transparency, you can review a video.
