

## ELECTRONIC SOW FEEDING SYSTEMS

# Uncompromising quality and an affordable solution with Call-Inn.

Big Dutchman's electronic sow feeding systems are unrivaled. But not everybody needs state-of-the-art equipment for the daily purpose. This is why we developed Call-Inn. This efficient electronic sow

feeding system is specifically made for farmers that do not yet have a need for the most complicated and sophisticated systems but who nevertheless like to have the core functions and benefits of those systems.

- | **affordable solution** for almost all farm sizes and production rhythms
- | **uncompromising top quality** of the highest Big Dutchman standard
- | **space-saving installation** and simple handling
- | ideally-suited for a **flexible installation in old buildings**

Come and visit us and let us explain all functions of the Call-Inn in our show room at the BD headquarters or live on a farm. We will gladly answer your questions. **Call us under +49-4447-801-0.**
