

TriSort

TriSort – the automatic sorting scale for successful pig finishing

- 250 to 350 pigs per group
- number and weight of ready-to-slaughter pigs can easily be determined
- the slaughter date can be determined in advance
- sorting of pigs in up to 10 weight groups
- information about daily gains and health status of pigs is always accessible
- stress-free sorting of ready-to-slaughter pigs
- much lower investment costs/place than for conventional housing systems
