

TWINSPIN TUBE SYSTEM FOR LIQUID FEEDING

With the licence to mix.

Our new TwinSpin tube system mixes feed perfectly thanks to its double spiral. The innovative geometry of the tube minimises pressure loss and maximises the mixing effect. Optimised radiuses and pitches of the spiral ensure ideal hygiene conditions.

| **Perfect mixing** due to the double spiral

| **Very little pressure loss** as a result of the new geometry of the spiral

| **Ideal hygiene** thanks to the optimised radiuses and pitches of the spiral

Big Dutchman.
